## PROFESSIONAL SUMMARY

Full Stack Developer and Computer Science graduate with hands-on experience building and deploying full stack web applications using React.js, PHP, Laravel, MySQL, JavaScript (ES6+), Tailwind CSS, and Bootstrap. Delivered 5 end-to-end projects covering RESTful API development, CRUD operations, relational database design, authentication, and real-time features with WebSockets. Completed structured full stack training through Instant Software Solutions and the NTI (National Telecommunications Institute) government-sponsored scholarship. Strong problem-solving skills, fast learner, and comfortable working in Agile/collaborative development environments. Actively seeking Full Stack Developer or Web Developer roles.

## TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Tailwind CSS, Responsive Web Design, AJAX/Axios, JSON

Backend: PHP, Laravel, RESTful API Development, CRUD Operations, WebSockets, Authentication & Authorization

Database: MySQL, Database Design, Relational Databases, Query Optimization

Tools & Practices: Git, GitHub, Postman, VS Code, Figma, Agile/Scrum Collaboration, Unit Testing, API Testing

Soft Skills: Problem Solving, Teamwork, Communication, Fast Learning, Attention to Detail

## WORK EXPERIENCE & PRACTICAL TRAINING

**Full Stack Developer — Practical Training Track** *Feb 2025 – May 2026*

*Instant Software Solutions & National Telecommunications Institute (NTI) — Cairo, Egypt*

- Completed a continuous practical training track spanning a full stack internship at Instant Software Solutions (Feb 2025) followed by the NTI government-sponsored Full Stack Web Development scholarship (Mar–May 2026), totaling structured, project-based full stack experience.
- Developed and maintained full stack web application features using React.js for the frontend and Laravel for the backend.
- Built and tested RESTful APIs using Postman, supporting reliable communication between frontend and backend layers.
- Collaborated within an agile development team and gained hands-on experience with Git version control and professional development workflows.
- Applied modern JavaScript (ES6+) and RESTful API design principles across project-based assignments during the NTI scholarship.

## PROJECTS

**SkillSwap Platform** *React.js · Laravel · MySQL · WebSockets*

- Built a full-stack skill-exchange platform enabling users to offer/request skills, find matches, and communicate in real time.
- Developed a responsive React.js frontend with reusable components and Tailwind CSS.
- Built Laravel RESTful APIs for user management, skills, requests, and platform interactions, backed by a relational MySQL schema.
- Implemented authentication and protected routes, plus WebSocket-based real-time communication between users.

**E-Commerce Web Application** *React.js · Laravel · MySQL · Bootstrap*

- Built a full-stack e-commerce app for product browsing, cart management, and order processing.
- Developed Laravel RESTful APIs (PHP) for products, categories, customers, and orders, with MySQL relational data modeling.
- Implemented shopping cart and order management logic with a responsive Bootstrap UI for desktop and mobile.

**Student Management System** *React.js · Laravel · MySQL*

- Built a full-stack CRUD application for managing student records, with a React.js interface and Laravel/PHP REST APIs.
- Designed the MySQL schema for persistent student data and tested all API endpoints and workflows using Postman.

**Expense Tracker** *React.js · Laravel · MySQL · Tailwind CSS*

- Built a full-stack personal finance application for tracking income, expenses, and category-based spending in real time.
- Developed a responsive React.js dashboard with dynamic charts and filters for visualizing financial records by category and date.
- Built Laravel RESTful APIs (PHP) for transaction management, category handling, and secure data persistence in MySQL.

- Implemented full CRUD operations for income/expense entries with server-side validation and a Tailwind CSS responsive UI.

*Additional project (Grove Market — React.js/Laravel/MySQL e-commerce CRUD application) available on GitHub and portfolio.*

## CERTIFICATIONS & TRAINING

- Full Stack Web Development — NTI Scholarship, National Telecommunications Institute, Government of Egypt (Mar–May 2026): React.js, Laravel, RESTful API design, modern JavaScript (ES6+); project-based assignments.
- Full Stack Development Course — Instant Software Solutions, Cairo, Egypt: React.js, Laravel, PHP, MySQL, JavaScript, HTML5, CSS3; built end-to-end applications integrating React.js frontends with Laravel backends.

## EDUCATION

**Bachelor of Science in Computer Science** *Graduated June 2026*

*Arab Open University — Qalyubia, Egypt*

Relevant Coursework: Data Structures & Algorithms, Database Systems, Web Development, Software Engineering, Object-Oriented Programming, Computer Networks.

## LANGUAGES

Arabic: Native | English: Good — Professional Working Proficiency
