LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Motivated Junior Full Stack Developer and Computer Science graduate with practical experience in designing, developing, and deploying responsive web applications. Proficient in React.js, Laravel, Node.js, Express.js, and MySQL. Completed a Full Stack Development internship at Instant Software Solutions and selected for the NTI government-sponsored scholarship. Skilled in building RESTful APIs, implementing JWT authentication, and delivering mobile-responsive user interfaces. Strong problem-solving abilities, agile teamwork experience, and a passion for writing clean, maintainable code. Actively seeking Junior Full Stack Developer or Web Developer opportunities — available for on-site roles in Egypt or international remote positions.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Tailwind CSS, Responsive Web Design

Backend: PHP, Laravel, Node.js, Express.js, RESTful API Development, JWT Authentication

Database: MySQL, Database Design, Query Optimization

Tools & Platforms: Git, GitHub, Postman, VS Code, Figma, Agile Development

Soft Skills: Problem Solving, Teamwork, Communication, Fast Learning, Attention to Detail

WORK EXPERIENCE

Full Stack Developer Intern — February 2025 | 1 Month

Instant Software Solutions — Cairo, Egypt

- Developed and maintained full stack web application features using React.js (frontend) and Laravel (backend), contributing to a production-level codebase.
- Built and tested RESTful APIs using Postman, ensuring reliable communication between frontend and backend layers.
- Collaborated within an agile development team, participating in code reviews and sprint planning sessions.
- Gained hands-on experience with Git version control and professional software development workflows.

CERTIFICATIONS & TRAINING

Full Stack Web Development — Scholarship — March – May 2026

National Telecommunications Institute (NTI) — Government of Egypt

- Competitively selected for a government-funded intensive scholarship in Full Stack Web Development.
- Completed advanced training in React.js, Laravel, RESTful API design, and modern JavaScript (ES6+).
- Delivered multiple project-based assignments applying real-world software development best practices.

Full Stack Development Course — Instant Software Solutions — Cairo, Egypt

Technologies: React.js · Laravel · PHP · MySQL · JavaScript · HTML5 · CSS3

- Completed a comprehensive Full Stack Development program covering frontend and backend technologies.
- Built end-to-end web applications integrating React.js frontends with Laravel RESTful backends.

PROJECTS

SkillSwap Platform — *React.js · Laravel · MySQL · REST API*

A full stack web platform enabling users to connect, exchange skills, and learn from one another.

- Architected and developed a multi-page React.js frontend with reusable components and React Router navigation, improving UI consistency across 10+ pages.
- Designed and built 15+ RESTful API endpoints using Laravel to handle user registration, skill listings, and matching logic.
- Designed a normalized MySQL relational database schema with 6+ tables supporting user profiles, skills, and session data.
- Implemented JWT-based authentication system with protected routes and role-based access control.

E-Commerce Web Application

Laravel · MySQL · Bootstrap

A full-featured e-commerce platform with product management, shopping cart, and order processing.

- Built a complete MVC web application using Laravel featuring a dynamic product catalog and admin dashboard.
- Designed a relational MySQL database schema managing products, categories, orders, and customer accounts.
- Developed a fully responsive UI using Bootstrap ensuring consistent experience across desktop and mobile devices.

To-Do List Application

React.js · Laravel · MySQL

A task management web application with full CRUD operations, real-time UI updates, and responsive design.

- Built an interactive React.js frontend with real-time task creation, editing, deletion, and completion toggling.
- Developed a RESTful Laravel backend API handling all task data persistence and business logic in MySQL.
- Implemented mobile-first responsive design ensuring seamless usability across all screen sizes and devices.

EDUCATION

Bachelor of Science in Computer Science

Expected June 2026

Arab Open University — Qalyubia, Egypt

- Relevant Coursework: Data Structures & Algorithms, Database Systems, Web Development, Software Engineering, Object-Oriented Programming, Computer Networks.

LANGUAGES

Arabic: Native | **English:** Good — Professional Working Proficiency
