PROFESSIONAL SUMMARY

Results-driven Computer Science graduate with hands-on experience building full stack web applications using modern technologies including React.js, Laravel, Node.js, and MySQL. Completed a Full Stack Development course and internship at Instant Software Solutions, and selected for the competitive NTI government-sponsored scholarship. Passionate about solving real-world problems through clean, maintainable code. Seeking a Junior Full Stack Developer role — open to both local Egyptian opportunities and international remote positions.

TECHNICAL SKILLS

Frontend: HTML5 · CSS3 · JavaScript (ES6+) · React.js · Bootstrap · Tailwind CSS
Backend: PHP · Laravel · Node.js · Express.js
Database: MySQL
Tools: Git · GitHub · Postman · VS Code · Figma

EXPERIENCE & TRAINING

Full Stack Development Course

Instant Software Solutions

Cairo, Egypt · React.js · Laravel · Full Stack Web Development

Full Stack Developer Intern

February 2025 · 1 Month

Instant Software Solutions · Cairo, Egypt

- Applied Full Stack skills in a professional environment working on real-world web development tasks.
- Collaborated with a development team to build and maintain web application features using React.js and Laravel.
- Gained hands-on experience with agile workflows, code reviews, and production-level development practices.

Full Stack Development Scholarship

March – May 2026

National Telecommunications Institute (NTI) · React.js · Laravel · Full Stack

- Selected for a competitive government-sponsored scholarship covering advanced Full Stack Development.
- Completed intensive training in React.js, Laravel, and modern web development best practices.
- Delivered project-based assignments simulating real-world development scenarios.

PROJECTS

SkillSwap Platform

React · Laravel · MySQL · REST API

A collaborative web platform connecting users who want to exchange skills and knowledge with one another.

- Developed responsive frontend interfaces using React.js with reusable component architecture.
- Engineered RESTful backend APIs with Laravel to handle user interactions and skill-matching logic.
- Designed and optimized a normalized MySQL database schema supporting user profiles and skill listings.
- Implemented secure JWT-based authentication and role-based user profile management.

E-Commerce Web Application

Laravel · MySQL · Bootstrap

A full-featured e-commerce platform with product listings, cart management, and order processing.

- Built a complete MVC application using Laravel with dynamic product catalog and admin dashboard.
- Designed a relational database schema to manage products, orders, and customer records in MySQL.
- Implemented responsive UI components using Bootstrap for seamless cross-device experience.

To-Do List Application

React · Laravel

A task management application with full CRUD operations, real-time updates, and mobile-responsive design.

- Built an interactive React frontend with real-time task creation, editing, deletion, and status toggling.
- Developed a RESTful Laravel API backend to persist task data and handle server-side logic.
- Delivered a fully responsive, mobile-first UI ensuring usability across all screen sizes.

EDUCATION

Bachelor of Science — Computer Science

Expected 2026

Arab Open University · Qalyubia, Egypt

- Completed coursework in Data Structures, Algorithms, Database Systems, Software Engineering, and Web Development.

LANGUAGES

Arabic — Native Proficiency **English** — Good (Professional Working Proficiency)
